# HEAR CONVERSATIONS IN DETAIL

The new **COM-DEX Remote Mic** is the perfect companion to COM-DEX. It lets you easily hear conversations close up and in detail, even in noisy environments.

## UP CLOSE AND PERSONAL

The **COM-DEX Remote Mic** is the answer in difficult one-to-one situations where hearing speech clearly can be a challenge.

It is easy to operate and connects wirelessly to your hearing aids via COM-DEX.

Your conversation partner can attach it using the convenient steel clip. Or you can simply place the **COM-DEX Remote Mic** in front of them for discreet listening within a range of 10 metres.

Sound can be controlled and adjusted from the device itself, or by using the COM-DEX app, available for most smartphones.

Small and easy to carry, and with a rechargeable battery that lasts up to 8 hours, the **COM-DEX Remote Mic** makes hearing conversations easy.
